

Product Information

The Problem:

The motorcycle chain is one of the most critical parts of a motorcycle. The drive chain is impacted by extreme forces, rendered by sporty riding styles, high torques & speeds and by heavily motorized machines. This requires a chain spray that can stand up to such challenges. Improper maintenance/lubrication of the chain can quickly lead to high metal abrasion (wear protection) between the chain and sprocket. As a result, the chain set has to be replaced within a short period of time.

The Solution:

HIGH END CHAIN LUBE

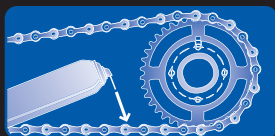

Product Advantages:

For extreme loads, e.g. high torque and sporty riding style – does not spin off!

- Perfection Made in Germany! This premium product was developed for the most demanding chain maintenance work!
- By using extremely effective high-performance additives, it offers excellent wear protection and outstanding lubrication performance even under extreme loads.
- Does not spin off, for a permanently clean chain environment
- Noticeably extends the mileage of the chain set
- Good wash-off resistance
- Top corrosion protection and creeping properties
- Contains PTFE
- Suitable for all chain types (O/X/Z rings)

Application Areas:

For all transmission chains

Application:

Shake can before use. Spray product with folded out spray tube evenly and sparingly on the **INSIDE** of the dry, clean chain. Allow to dry for at least one hour, ideally overnight. Re-lubricate after max. 700 km, and clean the chain after max. three lubrication cycles with S100 chain cleaner.

Tip:

Before using for the first time, clean the chain with S100 Chain Cleaner. Ideal accessories: S100 Clean Bob, to prevent soiling of tyres, rims etc. when spraying.
